This is **Rebecca Asante**, the Good Samaritan who is taking care of Elizabeth Akyaa. Back in April Pastor Benjamin asked for help to purchase mattresses and beds. Also "I Am" was able to help her with the purchase of plantain so she would be able to go to the market and sell it to be self sustaining. We are so pleased and happy that the Lord has made it possible to change these two lives.

PSALM 23:4 *Yea, though I walk through the valley of the shadow of death, I will fear no evil: for thou art with me; thy rod and thy staff they comfort*

Esther Dentaa is 40 years old. At the age of 36 her husband died leaving her with 1 child. She remarried and had another boy. Esther became ill and developed epileptic disease. Instead of her husband taking care of her, he abandoned Esther. So at the time Esther's mother took the responsibility of taking care of her and the two grandchildren. Esther's mother has died and now it is up to the two children to take care of their mother. This is a big burden on children of this age so Pastor Benjamin is pleading to "I Am" World Mission to come to their aid. ***They would be so happy if their pleadings are conceded thank you.***

This is **Adwoa Serwaa** a 39 year old widow. She is sick with 3 children to take care of. Her husband died 7 months prior to her giving birth to her third child. Her husband was the one that supported the family so Adwoa had to start doing something to get money to feed the children. So she started by fetching water and carrying it on her head to supply it to people's homes for money. She has now developed a severe pain and therefore can not work as she use to. The children and she are now living on the mercies of benevolent. Therefore "I AM" WORLD MISSION would like to come to their aid with food and maybe start her in a different business. ***Thank you.***

Pastor Benjamin's son, Jenkins has sickle cell. With sickle cell disease, red blood cells contort into a sickle shape. The cells die early, leaving a shortage of healthy red blood cells (sickle cell anemia), and it can block blood flow causing pain. Jenkins is in a very critical condition at the hospital. He has gotten some infection and some fluid has to be taken out of his lungs. ***Pastor Benjamin is asking for your prayers and any kind of financial help possible.***

*Psalm 72:12 For He shall deliver the needy when he crieth;
the poor also, and him that hath no helper.*
